**DETAILED ACTION**

1. Appellant has filed an amendment to cancel claims 37-43 on 03/27/2008 as per 37 C.F.R. 41.33(b). The amendment has been entered into record. Claims 1-6, 8-10, 16-20, 22-33 and 44-46 are currently pending.
2. Amendment received on 01/25/2007 was entered into record. Claims 1, 16, 25, 27-28 and 37 were amended. Claims 34-36 were cancelled.
3. Amendment received on 04/25/2006 was entered into record. Claims 1 and 16 were amended. Claims 7, 11-15 and 21 were cancelled.

***Priority***

4. This application has no priority claim made. The filing date is 08/17/2001.

***Reasons for Allowance***

5. Claims 1-6, 8-10, 16-20, 22-33 and 44-46 are allowed as per amendment received on 03/27/2008.

The following is an examiner's statement of reasons for allowance:

The closest prior arts of record issued to Rive (US 6301666 B1) and Largman et al. (US 20020188887 A1) together fail to teach or suggest "a network computer system, comprising: a processor; a memory device coupled to the processor, the memory device containing an embedded operating system that is executed by the processor; a network communication circuit coupled to the processor; the network communication circuit being adapted to allow the processor to communicate over a computer network with computer resources coupled to the network; a mass storage device coupled to the processor, the mass storage device having a first partition for storing user preference data and a second partition for storing user file data that may

be accessed by the processor; and a user preferences reset device and a user file data reset device coupled to the mass storage device, the user preferences reset device operable to reset at least some of the user preferences data independently of resetting user file data when activated and the user file data reset device operable to reset at least some of the user file data independently of resetting user preference data when activated” in combination with all the elements of each independent claim as argued by Applicant [See items 1 and 2 of subsection E of Argument as per appellant’s Appeal Brief Filed on 03/27/2008]. Applicant argues that the prior art does not disclose or suggest the combination of limitations “the mass storage device having a first partition for storing user preference data and a second partition for storing user file data” and “a user preferences reset device and a user file data reset device”. This argument is considered persuasive as per items 1 and 2 of subsection E of Argument on pages 21-25 of appellant’s Appeal Brief Filed on 03/27/2008.

The dependent claims further limit the independent claims and are considered allowable on the same basis as the independent claims as well as for the further limitations set forth. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
